

## Hearing Assistance Available

This place is equipped with the **Sennheiser MobileConnect** assistive listening system.

1. Join the Wifi
2. Download the app
3. Select your audio channel or scan the channel QR code.

Connect to our WiFi:

Name: Media

Password: Media123

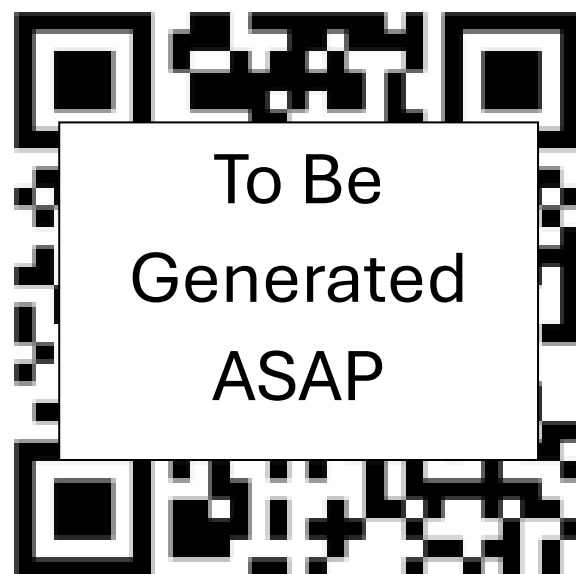

Download the App by  
scanning the QR  
code:

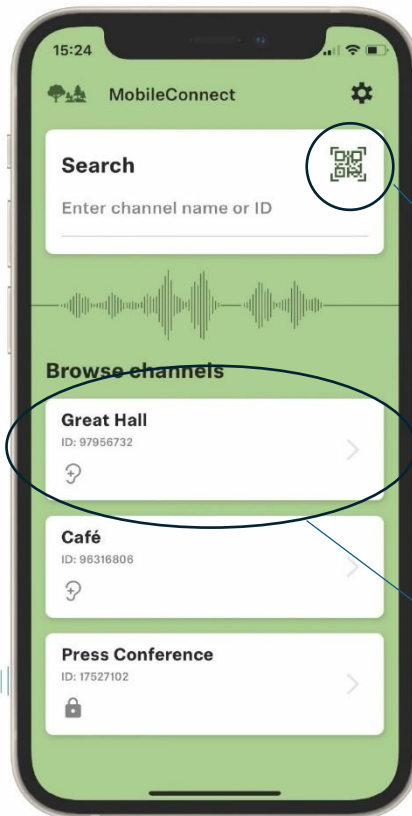

Once the app is  
downloaded connect  
to our channel by  
scanning the QR  
code:

Create your own app design and onboarding screens.

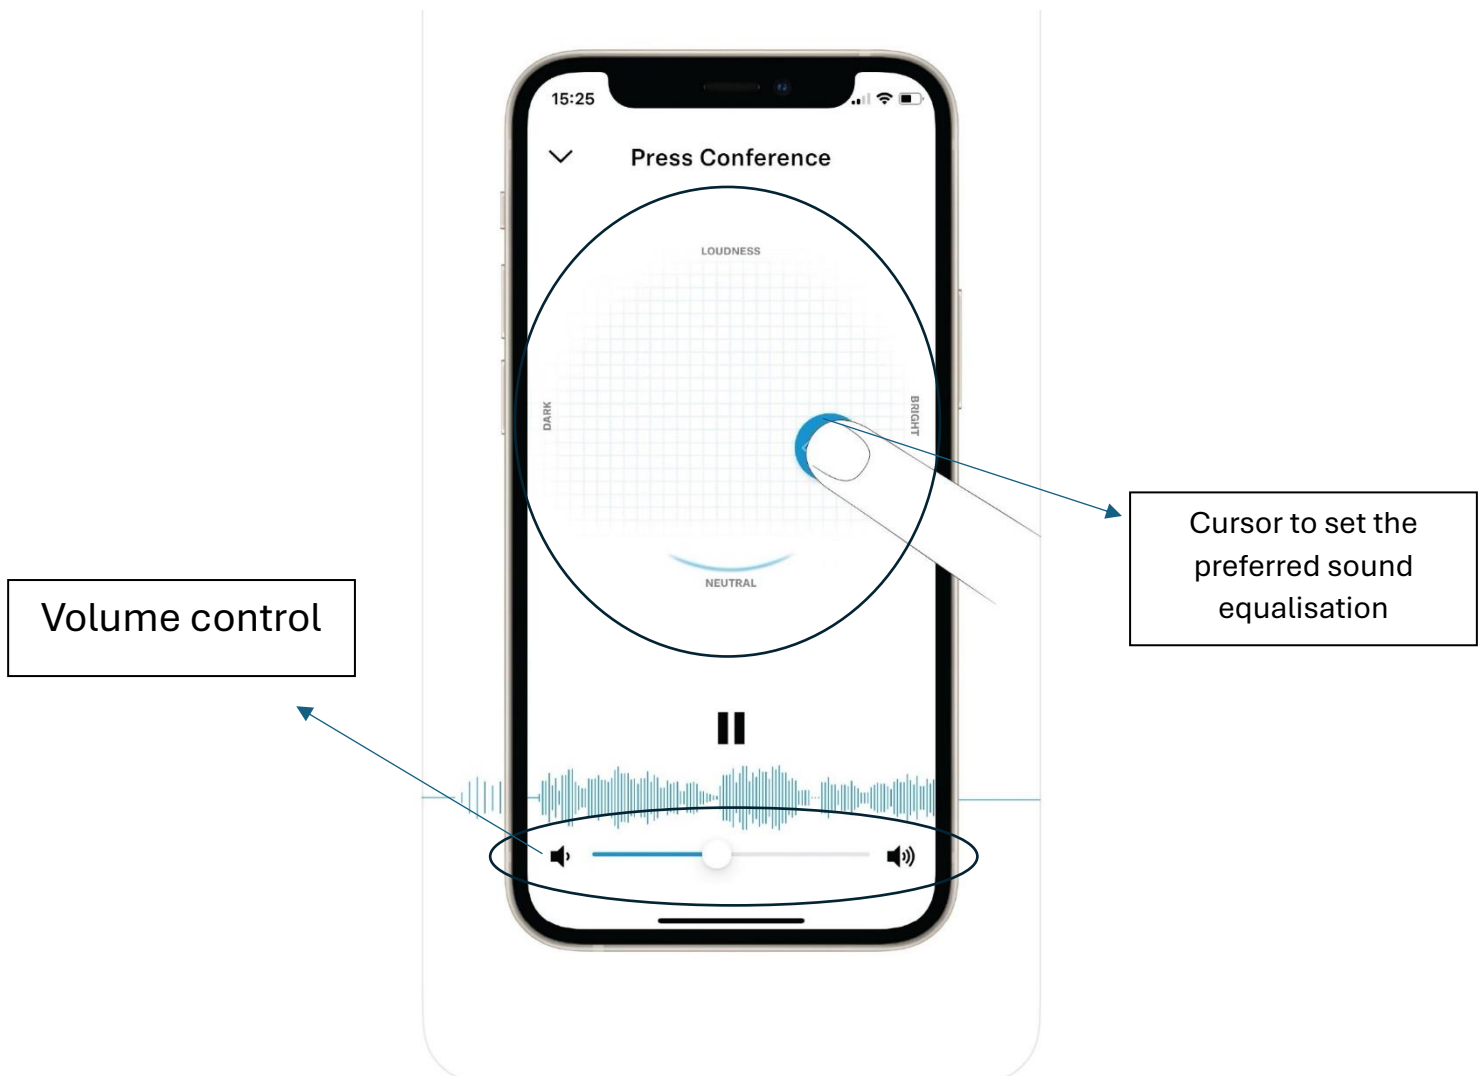

Press this to scan the QR code to get access to our hearing loop.

This will show the connection to the Grandhall loop when selected they can listen to the performance

Once in the app and the performance has started the customer has the option to change the sound levels to suit them, volume up/down and they can also balance the pitch (EQ) so if they are sensitive to high pitch they can move the cursor to suit them, same with lower pitches.

Volume control

Cursor to set the preferred sound equalisation
